COLORED PLEXIGLAS SHEETS

★ ★ ★

Transparent Red, Transparent Blue, Transparent Green
Translucent White, Translucent Red, Translucent Yellow
Opaque Black

★ ★ ★

Colored Plexiglas sheets are handled, worked and fabricated in exactly the same manner as the Crystal-Clear sheets. The color of our sheets is cast throughout the entire thickness of each sheet—not merely tinted on the surface. Colored Plexiglas may be cut, sawed, drilled, cemented, buffed and polished without affecting the true color of the sheets. All our colored sheets are masked with heavy paper to prevent scratching of the surface before use.

Colored Plexiglas is supplied in colors which are either TRANSPARENT, TRANSLUCENT or OPAQUE, as listed below. TRANSPARENT, of course, means that you can see right through the colored sheets; TRANSLUCENT colors permit light to pass through them, but you cannot see clearly through the sheet. OPAQUE is simply a solid color through which light cannot pass or be transmitted.

Our line of Colored Plexiglas is currently supplied in thicknesses of 1/16", 1/8", 3/16" and 1/4". Standard sheet sizes are: 6"x12", 12"x12", 12"x24", 12"x36", 24"x24", 24"x36". Colors, and their respective Article Numbers are as follows:

Article No.	Color
No. 500	Transparent Red
No. 510	Transparent Blue
No. 520	Transparent Green
No. 530	Translucent White
No. 540	Translucent Red
No. 550	Translucent Yellow
No. 560	Opaque Black

IMPORTANT: When ordering, please use Article Numbers above to indicate the color or colors of your choice, and specify thickness, sheet size and price.

Sheet sizes 12"x36", 24"x24", 24"x36" are relatively new in our line, and deliveries are still slow. Please be patient should we find it necessary to Back Order these sheet sizes.

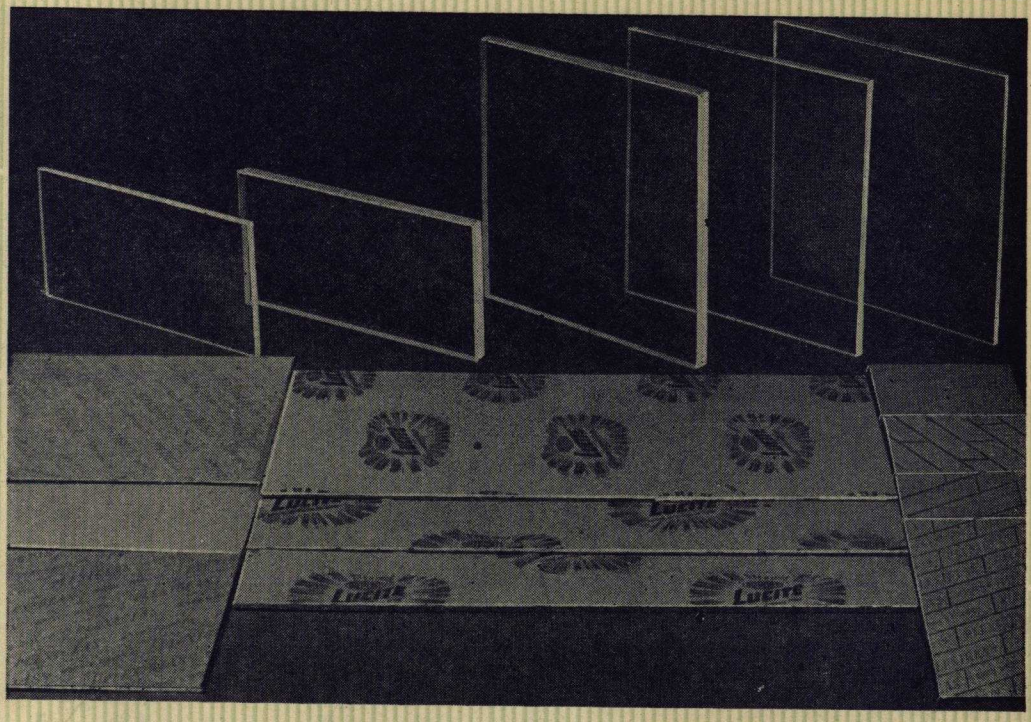
Prices subject to change without notice.



PLEXIGLAS and LUCITE SHEET PRICES SLASHED!

NOTWITHSTANDING constantly rising prices . . . despite increased business operating expenses . . . we found it possible, effective July 1, 1946, to drastically reduce prices on two popular materials — Plexiglas and Lucite in crystal-clear sheets, as well as in colored sheets.

If you are in the plastics fabricating field, think of the tremendous advantage which you will enjoy over competition when you place your orders for Plexiglas and Lucite sheets direct with Carmen-Bronson. As a craftsman, these new low prices mean an opportunity to widen and expand your work in plastics at less cost!

Because of the substantial price reductions, the demand for C-B Plexiglas sheets will increase tremendously. You may be sure that we will do everything possible to maintain our stocks at a level to insure prompt deliveries. However, in these days of short supply of many materials, we urge you to place your orders without delay, and as far in advance of your actual needs as possible.

Plexiglas and Lucite are as transparent as the finest optical glass. They may be sawed, carved like wood — and machined, drilled and threaded like soft metal. Both plastics take an extremely high polish — and may be made to glitter like jewels.

Hundreds of useful articles that are beautifully different may be made from Plexiglas or Lucite. Project suggestions and complete fabricating directions are included free with all orders for these two plastics.

PLEXIGLAS KITS and ASSORTMENTS . . .

SPECIAL PLEXIGLAS ASSORTMENTS

These assortments (which may also contain pieces of Lucite) consist of odd-shaped flat pieces, triangle, rods, strips—obtained from cut-off's from large fabricators. Ideal for making small articles — costume jewelry, decorative tableware, ornaments, etc. — and for low-cost experiments and group instruction. Together, pieces in 1-lb. assortment total about 100 square inches. Assorted thicknesses. We cannot offer to select sizes, or thickness of pieces.

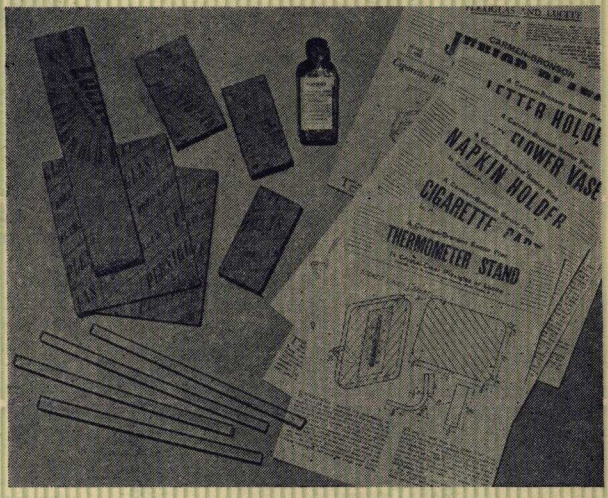
Prices below include supply of PLASTI-SET, the fast-acting Plexiglas and Lucite cement, furnished with each order for these assortments as well as Instruction sheet.

No. 1-A—1	Lb.	$ 1.00
6	Lbs.	5.00
25	Lbs.	18.75
50	Lbs.	35.00
100	Lbs.	65.00

PLEXIGLAS and LUCITE KIT #1

A regular $1.75 value. Includes one full pound assorted Plexiglas and Lucite, one 1-oz. bottle Plastiset, Junior Working Drawings, Senior Working Drawings and complete instructions Developed for beginners and includes enough Plexiglas for quite a number of small articles. The Kit has long been a top favorite in the home craft field.

KIT No. 1, complete.....$1.25



PLEXIGLAS and LUCITE KIT #2

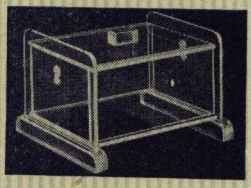
A regular $3.25 value. Includes one pound assorted Plexiglas and Lucite, one 2-oz. bottle Plastiset, three 2-oz. bottles Plastic Dyes (red, blue, yellow), Junior Working Drawings, Senior Working Drawings, complete instructions. Dyes may be mixed to obtain a wide variety of shades. Colored Plexiglas projects are fast gaining favor. Here's your chance to make them yourself at very low cost.

KIT No. 2, complete.....$2.00

Carmen-Bronson *PRE-FABRICATED* PLEXIGLAS KITS . . .

Now you can enjoy the beauty and utility of attractively designed Plexiglas articles in your home at low cost! Compare the prices of our Pre-Fabricated Kits with the finished products featured in Department Stores. You'll find that you save ½ or more from the regular retail price! This generous margin also can mean a splendid PROFIT opportunity—should you wish to assemble the Kits in quantity for re-sale. Note special prices for Kits ordered in dozen lots—which further increases your margin of profit. C-B Pre-Fabricated Kits may be assembled even by beginners in Plastics without special tools of any kind.

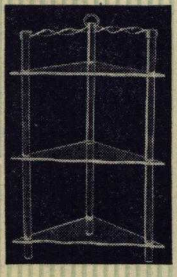
CIGARETTE BOX



An attractively-designed modern cigarette box, measuring 3⅝" x 4⅛" x 3$\frac{1}{16}$" when completely assembled. Kit comprises nine cut-to-size and machined Plexiglas or Lucite pieces (plus two Cameos for a decorative touch!) — ready for polishing, assembling and cementing. Illustrated instructions included, together with the necessary Plastiset, and Buffing Compound.

KIT No. 3, complete ..... $ 1.50
Per Dozen 15.00

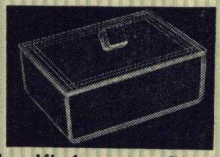
CORNER WALL SHELF



A corner wall shelf in crystal-clear Plexiglas, measuring 11" high and featuring three novel triangular shelves with curved edges. Kit consists of rods, 3 triangular pieces for shelves, a brace piece for the top and a "hang" ring—ready for polishing, assembling and cementing. Complete with illustrated instructions, Plastiset and Buffing Compound.

KIT No. 4, complete ..... $ 1.95
Per Dozen 19.50

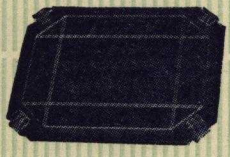
CANDY BOX



Although classified as a Candy Box, this superbly-designed Kit may also be used as a Vanity Box, Utility Box or Jewel Box. Note the unique handle or knob on cover. And the gracefully rounded bottom end pieces! Decorative lines on cover are prescribed. Accurately machined to insure easy assembling even by beginners. $\frac{3}{16}$" stock used. Ready for polishing, assembling and cementing. Complete with illustrated instructions, Plastiset and Buffing Compound.

KIT No. 5, complete ..... $ 2.95
Per Dozen 29.50

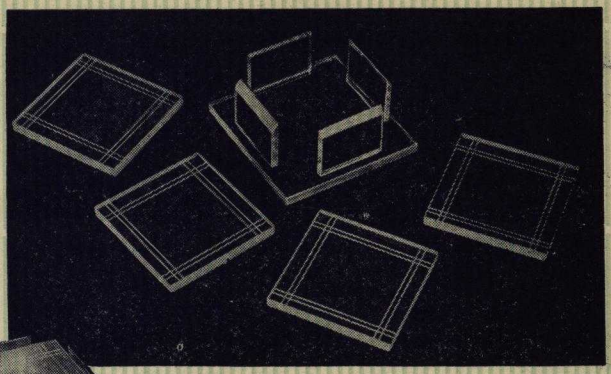
PLEXIGLAS and PLYWOOD TRAY



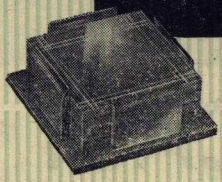
A C-B project that combines the warmth and beauty of Mahogany plywood with the radiance of Plexiglas. Plexiglas sheet itself measures 8" x 10⅜" and is ⅛" thick. Double decorative lines are pre-scribed and holes are drilled and tapped on underside for fastening to plywood base. Mahogany plywood is ¼" thick, sanded both sides, but otherwise uncut and unfinished. Four Plexiglas legs are pre-formed and ready to slip in place. Complete with illustrated instructions and accessories.

KIT No. 7, complete ..... $ 2.95
Per Dozen 29.50

COASTER SET

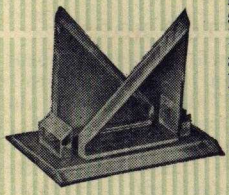


An outstanding example of Plexiglas projects at their very best. Low in original cost, yet the finished project compares favorably with other sets which retail much higher than the small price we are asking. Base and coasters are machined from ¼" stock. Pre-scribed lines on coasters. Edges of project may be polished or left unpolished, as desired. Ready for assembling and cementing. Complete with illustrated instructions, Plastiset and Buffing Compound.



KIT No. 10, complete $ 1.95
Per Dozen 19.50

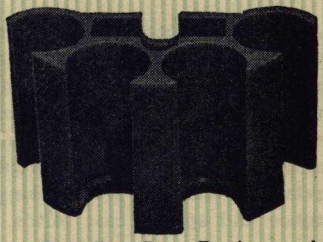
CIGARETTE and MATCH STAND



An outstanding, low-cost project that features a novel triangular design. All edges are beveled in harmony with the triangular motif. Holds both King-size or regular packs and book matches at each side. ¼" Plexiglas stock used. Ready for assembling, polishing and cementing. Complete with illustrated instructions, Plastiset and Buffing Compound.

KIT No. 8, complete .....$ 1.25
Per Dozen 12.50

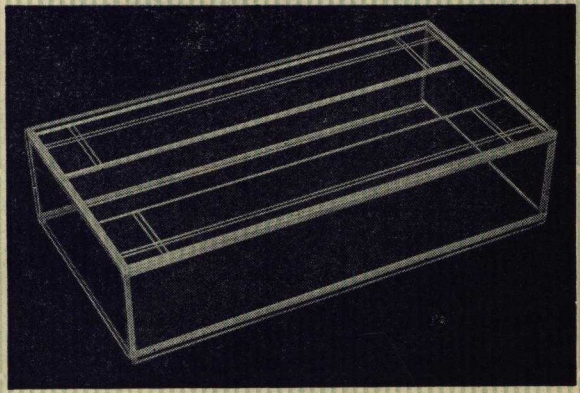
Bakelite POKER CHIP RACK



A Bakelite Cast Resin semi-finished plastic project. This full-size poker chip rack is cast into exact shape and form. All you need do is to polish and finish each rack in accordance with directions supplied. Finished rack usually retails for $4.00 to $5.00 or more. Mottled Green color only.

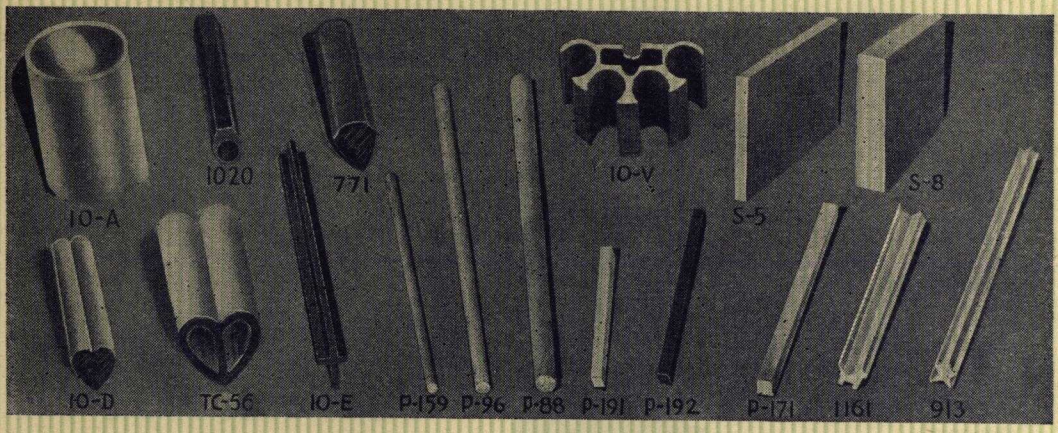
No. 10-V RACK each $ .95
Per Dozen 9.95

TISSUE BOX



A full-size Tissue Box that adds sparkle and splendor to any room. A worthwhile project that will make a cherished gift! Complete Kit costs you only $3.95, but the finished project compares favorably with similar boxes on the market that retail from about $8.00 to $12.00 or more. Sliding-panel bottom for easy filling. All pieces precision machined to insure fast and easy assembling. Complete with illustrated instructions, Plastiset and Buffing Compound.

KIT No. 11, complete .....$ 3.95
Per Dozen 39.50



BAKELITE CAST RESINS

Among the outstanding materials to command the attention and interest of all Craftsmen in the post-war years are the BAKELITE Cast Resins plastics. BAKELITE Cast Resins are pure resins with coloring materials added to obtain vivid glowing color effects—solids, mottles, striated tones and varying degrees of transparency and translucency. In finished form, they are noted for their depth of color, richness and natural beauty. The variety of articles and parts that can be fabricated from BAKELITE Cast Resins is legion. The materials are relatively easy to work, using ordinary hand or power tools. They are made in sheets, rods, tubes and special cast forms. A special folder is now ready, giving full details concerning this interesting material, as well as detailed information on how to handle and fabricate them. This folder is included free of charge with all orders for BAKELITE Cast Resins listed in this Catalog. Also mailed free upon request.

BAKELITE HEART RODS

Cast into the form of a heart, size 1⅝" these rods are about 7" long and are designed for mass production of heart pendants. Out of each rod, you can saw, cut or "slice" about 20 heart pendants — polish and finish each in accordance with the directions in the BAKELITE folder. Of genuine interest to the Plastics-Craftsman who is looking for a staple item that can be produced economically and sold profitably. Supplied in TRANSPARENT AMBER, BLUE, RED, CLEAR. Please specify color wanted when ordering.

No. 10-D — Heart Rod, each ..... $ .75
Per dozen 7.50

BAKELITE CROSS RODS

Same type of rod as above, but cast into the form of a cross. Rods average about 12½" length — and cross measures 2" lengthwise. Use these rods for fast and economical production of cross pendants — another staple and profitable item that finds a ready market. Supplied in TRANSPARENT AMBER, BLACK, WHITE, BLUE. Please specify color wanted when ordering.

No. 10-E — Cross Rod, each ..... $ .75
Per dozen 7.50

BAKELITE "SCOTTIE" RODS

Here is a rod that will instantly appeal to all Plastics-Craftsmen. It's cast into the form of cute "Scottie" dog, size 1⅝", and is ideal for mass production of "Scottie" pins and brooches. Rod is 10" long, enabling you to produce about 40 Bakelite Cast Resin "Scottie" pins from each rod. Available in WHITE color only.

No. 1161 — Rod ..... $ .60
Per dozen 6.00

3" RED BAKELITE TUBES

Average length is about 8¼"; wall thickness about ¼". Actual outside diameter is: top 3.114", bottom, 3.104". Supplied in unpolished Red color, but is easily polished to a very high gloss. Suitable for bracelets, half-round boxes, etc. Unfortunately, deliveries are very slow from manufacturer and we will be unable to catch up with our Back Orders until well into the Fall of 1946.

No. 10-A — Tube ..... $ 1.35
Per dozen 13.50

3" BLACK BAKELITE TUBES

Same general type tube as above, but much lighter wall thickness (about 3/32"). Supplied **in unpolished BLACK color, which may eas-**

ily be polished to look like handsome onyx. Length 8½"; actual outside diameter slightly under 3". Also very slow arriving from manufacturer and it will take us until Fall, 1946, to catch up with Back Orders.

No. TC-22 — Tube ..... **$ .70**
Per dozen **7.00**

BAKELITE STAR RODS

Rod is 13¾" long and is cast into the form of a five-point star, size 1⅛". A perfect item for making attractive brooches, pins; for decorating ladies hats, handbags; for general decorative purposes on boxes, fixtures, etc. From each rod you can cut or "slice" about 50 to 65 Bakelite stars! Available in unpolished YELLOW color and easily polished to high gloss.

No. 913 — Rod ..... **$ .45**
Per dozen **4.50**

BAKELITE "SHIELD" RODS

Same general type rod as the others above, but cast into the form of a "shield," size 2" by 1⅛". Has gracefully formed top that curves into a point at bottom. For brooches, pins and decorative touches on ladies belts, hats, pocketbooks, etc. Rod is 5¾" long, permitting you to cut about 20 to 25 "shields." Available in MOTTLED BLUE color.

No. 771 — Rod ..... **$ .80**
Per dozen **8.00**

BAKELITE "RING" RODS

The trend in the jewelry and novelty field is definitely towards more and more plastic items—and rings made from Bakelite Cast Resins offer a Craftsman a very interesting and profitable business or hobby. This rod is cast into the form of a ring for men. Rod is 4½" long, from which you can cut or "slice" about 8 to 12 rings. Ideal for photo, initial and other novelty rings. Has flat top. Supplied in BLACK COLOR and can be polished to look like onyx.

No. 1020 — Rod ..... **$ .15**
Per dozen **1.50**

BAKELITE "HEART" BUCKLE ROD

This rod, 8¼" long, is cast into form of a heart-shaped ladies belt buckle, size 2⅛". Belt holes are cast through the rod. You can cut or "slice" about 25 to 35 attractive and sturdy heart-shaped buckles from each rod. Supplied in TRANSPARENT AMBER color. Buckles made from this rod and the transparent amber heart pendants from our Rod No. 10-D, make a very handsome set. Order this Buckle rod today!

No. TC-56 — Rod ..... **$ 1.25**
Per dozen **12.50**

BAKELITE POKER CHIP RACK

See KIT section of this Catalog for details and prices of our No. 10-V Poker Chip Rack.

½" MOTTLED BAKELITE SHEETS

These small sheets are ½" thick and 6" x 6½" in size. Perfect for bases of various projects such as desk sets, boxes and other articles. Supplied in MOTTLED RED or MOTTLED GREEN color. Easily polished to high gloss.

No. S-5—MOTTLED RED, Sheet **$1.35**
No. S-6—MOTTLED GREEN, Sheet **1.35**

1" MOTTLED BAKELITE SHEETS

Same type sheet as above but in heavy-duty 1" thickness; sheet size 6" x 6½". For project bases, for knife handles; and for carved projects, etc. Supplied in MOTTLED RED or MOTTLED GREEN color.

No. S-8—MOTTLED RED, Sheet **$2.70**
No. S-9—MOTTLED GREEN, Sheet **2.70**

7/16" BAKELITE SQUARE RODS

Now that most Civilian restrictions on plastics have been lifted, we will constantly add to our line of BAKELITE Cast Resin forms. Here are square rods which you will want to try in your shop at the first opportunity. Supplied in unpolished yellow color. Rod is 7/16" square by 8" long.

No. P-191 — Per rod ..... **$ .12**
Per dozen **1.20**

½" BAKELITE SQUARE RODS

Rod is ½" square by 10" long. Unpolished black color.

No. P-192 — Per rod ..... **$ .17**
Per dozen **1.70**

¾" BAKELITE SQUARE RODS

Rod is ¾" square by 15" long. Unpolished white color.

No. P-171 — Per rod ..... **$ .55**
Per dozen **5.55**

⅜" BAKELITE ROUND RODS

BAKELITE round rods are available too! This rod is ⅜" dia. by 12" length in green color.

No. P-159 — Per rod ..... **$ .08**
Per dozen ..... **.80**

½" BAKELITE ROUND RODS

This item is ½" dia. by 22" long. Red color, unpolished.

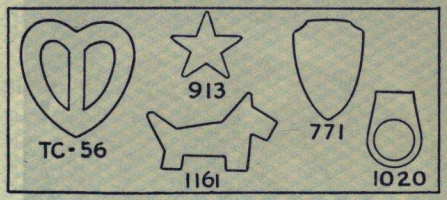
No. P-96 — Per rod ..... **$ .28**
Per dozen **2.80**

¾" BAKELITE ROUND RODS

A very sturdy rod. ¾" dia. by 22" long. Blue color, unpolished.

No. P-88 — Per rod ..... **$ .65**
Per dozen **6.50**

CROSS-SECTION of BAKELITE FORMS



We are sure that you will be very pleased to see TENITE II Tubing now listed as standard stock in the Carmen-Bronson line of Plastics. This tubing is high quality, yet relatively inexpensive. Our line of tubing is manufactured from TENITE II (Cellulose Acetate Butyrate), a product of the Tennessee Eastman Corp. It is exceptionally easy to work with and not at all brittle. At present our TENITE II Tubing is supplied in CLEAR transparent only, but this material may easily be dyed with our Plastic Dyes. Follow same general instructions for handling and fabricating TENITE II as with Plexiglas and Lucite. TENITE II is a thermoplastic and may be bent or curved when heated. For cementing, simply dissolve a few chips of TENITE II into Acetone. The resulting mixture is an excellent cement for use in cementing TENITE II.

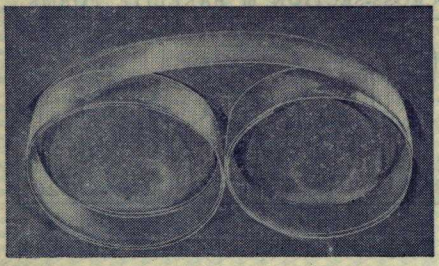
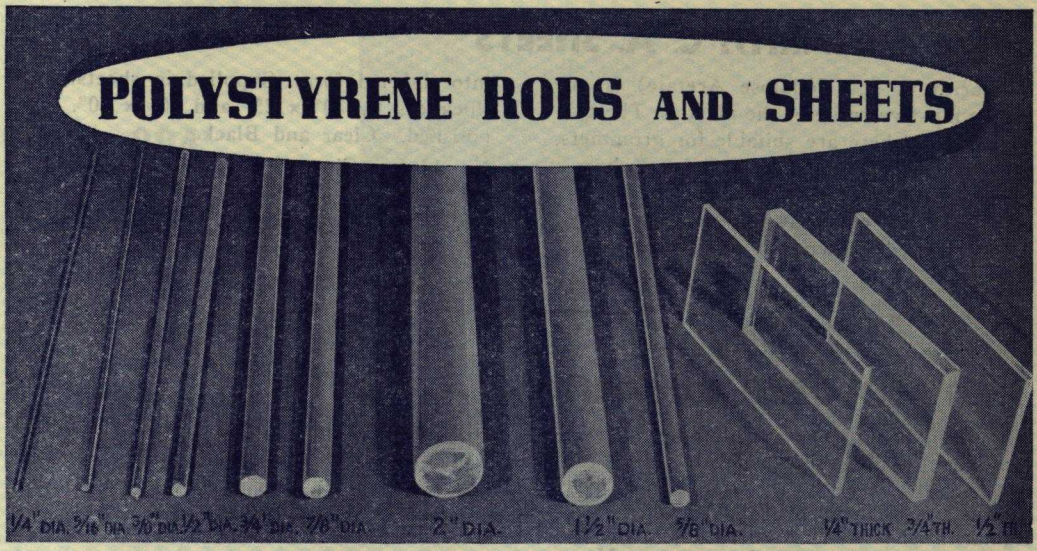
IMPORTANT: Due to packing and shipping problem on 72" lengths of TENITE II TUBING, there is a special packing charge of 25¢ additional on all orders for 72" lengths regardless of how many of these long tubes are ordered. Please be sure to remit the 25¢ special packing charge whenever you order TENITE II TUBING in 72" lengths.



.062" TENITE STRIP

A transparent Cellulose Acetate Butyrate strip, 1⅛" wide and .062" (1/16") thickness. May be dyed with our plastic dyes.
Supplied in 72" and 144" lengths only.

No. 230 — 72" length ..... $ .75
144" length 1.35



Here is crystal-clear glistening Polystyrene listed for the first time in the C-B line of Plastics. It is classified as a thermoplastic, and is fast gaining favor in the radio and electonics fields because of its high insulating qualities. In fact, we are stocking Polystyrene in small sheets, particularly suited for the full-fledge radio Hams among our customers, who require it in their work constantly. Also very suitable for the Craft field, although more brittle than Plexiglas. However, it does have many favorable and interesting characteristics of its own. To insure complete success in fabricating Polystyrene, follow special instructions included with each order. Try this new material with your next order.

.025" LUMARITH C. A. SHEETS

Lumarith C. A. (Cellulose Acetate) is one of the most versatile of the plastics. The thin sheets listed here are suitable for grommets, map and dispatch cases, containers, boxes, veneer and numerous other articles, Lumarith may be cut, sawed, turned, milled, drilled, sewed, blown and otherwise worked into finished form. Supplied in sheets .025" thickness by 20" x 25" and 20" x 50". polished. Clear and Black.

No. 13-A —	Clear, 20" x 25"	$ 1.35
	Clear, 20" x 50"	2.50
No. 13-B —	Black, 20" x 25"	1.45
	Black, 20" x 50"	2.70

.030" COLORED LUMARITH C. A. SHEETS

Same type sheet stock as above but in heavier gauge (.030" thickness) and offered to you for the first time in a variety of brilliant colors as listed below. All our colored Lumarith sheets are transparent, with exception of white, which is opaque. Many Craftsmen during 1944 and 1945 inquired about this type material and we are sure that our colored LUMARITH sheets will be welcomed by all Plastics Fabricators and Craftsmen throughout the country. Supplied in sheets size 20"x25" and 20"x50". Polished to a high gloss on both sides.

No. 13-D —	White, 20"x25"	$ 1.85

	Green, 20"x50"	3.60

1/8" WHITE LUMARITH C. A. SHEETS

This is our first stock of heavier LUMARITH sheets. These sheets are 1/8" thick and in sheet sizes as listed below. LUMARITH is one of the easiest plastics with which to work. Saws, drills, machines, etc., with little effort. LUMARITH is a Thermoplastic and may be bent into almost any form by heating. Handles and fabricates much in the same manner as Plexiglas and Lucite. Easily cemented. Sheets are available in opaque WHITE for the present. Polished to high gloss on both sides. Try a few projects with our 1/8" WHITE LUMARITH!

No. 13-L —	Sheet 10"x25"	$ 3.65
	Sheet 20"x25"	7.25
	Sheet 20"x50"	14.90

.030" COLORED LUMARITH STRIP

Another new stock item in our line! A thin Lumarith strip (.030" thickness) in 1/2" width. Used for weaving, decorative borders on furniture and other projects, inlays, display trims, etc. Available in RED, BLUE, YELLOW, GREEN, WHITE. Please state colors wanted when ordering.

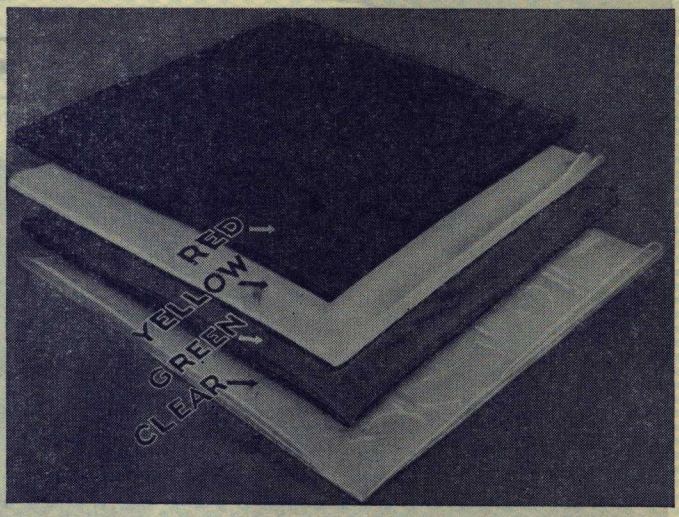
No. 13-J —	5 Yards	$ .60
	10 Yards	1.00
	25 Yards	2.35
	50 Yards	4.50

1/2" CLEAR LUMARITH RODS

These rods, while not crystal clear like Plexiglas and Lucite, machine extremely well and may be dyed with our Plastic Dyes. This lot is offered on a subject-to-prior sale basis. Actually, the rods are a shade under 1/2"

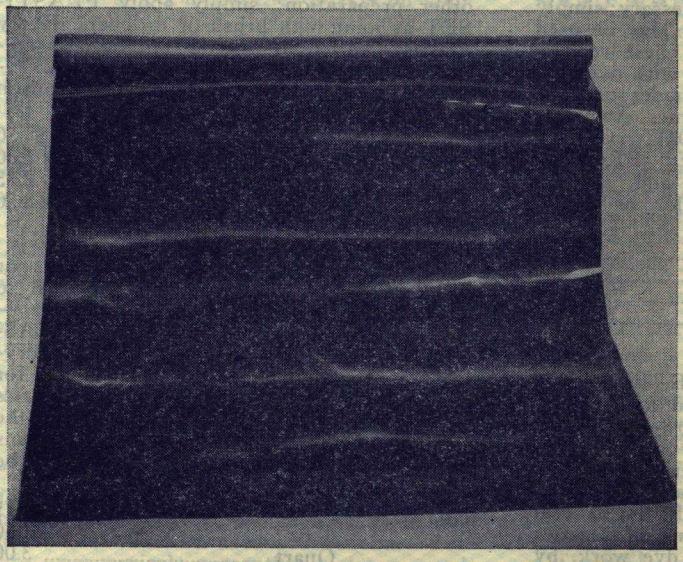
No. 13-Y —	1/2" dia. x 24", ea.	$ .45
	Per dozen	4.50

.004" VINYL FILM



A tough, durable, waterproof plastic offered in .004" "film" thickness and used widely for raincoats, shower curtains, bowl covers, aprons, beach bags, bathing caps, pouches, etc. Heat-sealing — that is, seams may be sealed by pressing with ordinary flatiron. Supplied in 36" widths and sold by the running yard only. Available in CLEAR, YELLOW, RED, GREEN, BLUE. Please state color wanted.

No. 300 — Vinyl, per yard.....$ .75



.020" PLASTIC PATENT

A new stock item in our constantly expanding line of modern plastics materials. You've seen this glistening smooth, soft, yet tough and durable material used for ladies handbags, belts and many other articles. Now available to you in two popular size sheets, as listed below, polished "glossy" finish on one side. Stocked in BLACK, BROWN and TAN colors. Please specify color wanted. All sheets .020" thickness, very flexible and pliable.

No. 310 — 21" x 20" sheet, ea.....$ 1.85
No. 315 — 21" x 41" sheet, ea..... 3.60

PLASTIC DYES

Our plastic dyes will permanently color Plexiglas and Lucite in five minutes. This is done by simply dipping the finished polished article into the dye. No heating or other treatment of the dyes necessary; simply use over and over as received. May be used to color other plastics. For best results, please read directions supplied with dyes before using. Light or deep shades may be obtained by varying dipping time. Available in RED, BLUE, YELLOW, GOLD, GREEN, AQUAMARINE, BROWN, BLACK, CHARTREUSE and AMETHYST. Please specify color or colors wanted when ordering.

No. 11—2 oz. (any color) ..... $ .50
8 oz. (any color) 1.00
Quart, (any color) 2.25
Gallon, (any color) 7.50

DYE-TONE

Carmen-Bronson DYE-TONE is a very powerful concentrate developed for pepping up and reviving old and slow-acting dye solutions. Only a DROP or TWO of DYE-TONE will quickly extend the life on any of our Dyes after they have been used over and over again, thus effecting a real savings for you! If your line of plastics articles calls for considerable dye work, by all means use DYE-TONE, to "pep up" your dye solutions, as needed. Instructions included.

Available in same colors as our Plastic Dyes. Please specify color wanted when ordering.

No. 30-A — 1 oz. ..... $ .75
2 oz. 1.30

PLASTISET

The NEW dependable, fast-acting cement for Plexiglas and Lucite. PLASTISET is non-acid, non-corrosive. It cements joints rigid in only 15-20 minutes. No heating or other preparation; simply apply PLASTISET at joint with brush or dropper. Every Plastics-Craftsman should familiarize himself with this superior product. PLASTISET is sold exclusively by Carmen-Bronson Company.

No. 14-A — 2 oz. ..... $ .50
6 oz. 1.00

Gallon 8.50

GENERAL PLASTIC CEMENT

Cementing glass or metal to Plexiglas or Lucite has always presented a problem to Plastics-Craftsmen. Here's your answer — the Carmen-Bronson GENERAL PLASTIC CEMENT. Safe to use . . . fast drying . . . economical. May also be used for cementing glass and metal to other plastics besides Plexiglas or Lucite. Great for the Craftsmen who specializes in jewelry items and uses metal findings which have to be cemented to plastics.

No. 31-A — 2 oz. ..... $ .75
6 oz. 1.50
Quart 3.00
Gallon 9.75

PLASTIC CLEANER

Still another new addition to our line! Especially developed for cleaning Plexiglas and Lucite. Dip, spray or wipe on — and rub clean with a dry, soft cloth. The surface **really sparkles after that!**

No. 16-A — 6 oz. ..... $ .40
Quart 1.00
Gallon 3.75

PLASTIC BUFFING COMPOUND

Another exclusive Carmen-Bronson product! In soft paste form. Simply smear a bit on any rough edge or surface (a sawed edge of Plexiglas or Lucite, for example), buff by hand with a soft cloth or on a buffing wheel—and watch the edge or surface turn smooth and glistening! Great for buffing off deep scratches. A great time saver that does the job well. Economical, too, because it is used mixed with water.

No. 17-A — 12 oz. ..... $ .65
48 oz. 2.00

C-B PLASTIC POLISH

For some time now, we have felt that a Plastic Polish would be of great usefulness to Craftsmen, and we are pleased to introduce this new product. Use it for the finishing touches and brilliant gleam on your plastics projects. For all plastics. Simple to use.

No. 17-B — 6 oz. ..... $ .75

MOTTLING DYE and COMPOUND

Now you can secure mottled effects on your plastic projects with this special dye and compound. You can produce tortoise shell effects, complete with light and dark sections, by first dipping the article into the special Amber dye and treating with compound. Directions included. Special Amber dye (6 oz.) and mottling compound (2 oz.) sold as a set only.

No. 28—Dye and Compound, per set....$1.65

LUMARITH CEMENT and THINNER

Especially developed for Clear and Colored Lumarith and all Cellulose Acetate material or articles. Cement comes with equal amount of thinner; directions included. 2 oz. Cement and 2 oz. thinner.

No. 13-M—Cement and Thinner, complete ..... $ .75

PLEXIGLAS CEMENT

For use with Plexiglas or Lucite only. Immersion type cement, which acts as a solvent. May also be used brushed on. For safe, economical cementing, please read directions supplied with cement CAREFULLY before using. Slow acting; offered to Plastics Craftsmen principally for experimental purposes.

No. 12-A — 3 oz. ..... $ .60
5 oz. ..... .75
10 oz. 1.25

JUNIOR WORKING DRAWINGS

Complete with detailed instructions for fabricating and assembling. Includes cigarette box, cigarette cart, cross pendant, knife rack, napkin ring, modern desk blotter.

Complete Set 6 Junior Plans..... $ .25

SENIOR WORKING DRAWINGS

Includes cigarette wagon, thermometer stand letter holder, napkin stand, novelty flower vase.

Complete Set 5 Senior Plans..... $ .50

PUMICE STONE

If you haven't already done so, you will want to try this inexpensive powder for buffing and polishing plastic surfaces. Used in industry mainly in tumbling barrels, but does a good job when used for polishing by hand.

No. 18-A—Fine (#FF), 1 lb..... $ .16
No. 18-B—Medium (#0), 1 lb..... .16
No. 18-C—Coarse (#0-½), 1 lb..... .16

TRIPOLI BUFFING COMPOSITION

Supplied in bar form about 2 pounds each in size. Used for buffing and polishing on a buffing wheel. Not recommended for hand buffing.

No. 19-A—Bar $1.40

HARD WHITE BUFFING BAR

Same type composition in bar form as above, but in white color. Bar weighs about 1½ pound.

No. 20-A—Bar $1.15

"WETORDRY" SANDPAPER

To sand metal or plastics with water! You can rinse and use each sheet repeatedly. Package contains 12 sheets 4½" x 5½", assorted grits.

Per Package ..... $ .15
Per Dozen 1.50

"WETORDRY" GARNET PAPER

Same general type as the "Wetordry' sandpaper listed above, but in Garnet type design for heavy duty production and faster finishing. Used widely by commercial shops, both in woodworking and in plastics fabrication. Four grits: Fine (#7/0), Medium Fine (#5/0), Medium (#3/0), and Coarse Medium (#1/0). Please specify grit wanted. Sheet size 9" x 11".

Per Sheet ..... $ .08
Per Dozen ..... .80

RUBBER SANDING BLOCKS

Permits uniform pressure when sanding—and does away with high lights caused by finger pressure. Sanding surface size 2½" x 5".

Each $1.25

SURFACE-NU PLASTIC FINISH

SURFACE-NU is a superior clear plastic finish for wood and linoleum. It dries in 40-60 minutes. Apply with brush, spray—or wipe on with a cloth. Tough! Beautiful! Stainless! Safe! Renews worn linoleums; preserves and protects all surfaces to which it is applied. SURFACE-NU can be applied over shellac, varnish, lacquer or paint. Pint will cover about 100 square feet.

Pint	$ 1.00
Quart	1.85
Gallon	4.95
Five Gallons	22.25

FRANKLIN LIQUID HIDE GLUE

Nationally famous for quality.

Pint	$ .85
Quart	1.50
Gallon	4.50

DURHAM'S Rock Hard Water PUTTY

To repair walls, floors, furniture or plaster. This plastic repair material comes in powder form . . . just mix with water and use.

1 lb.	$ .30
4 lbs.	1.00

"SANDY SMOOTH" SANDPAPER

Every package of "Sandy Smooth" contains 20 sheets of quality sandpaper 4⅜" x 5¼" in a complete assortment of grits from fine to coarse. This assortment permits selection of the correct grit for the sanding job at hand!

Per Package	$ .10
Per Dozen	1.00

"IMPERIAL" SANDPAPER

All of the flints, sandpapers and other abrasives listed in this Catalog are produced by the Minnesota Mining and Mfg. Co. "Imperial" sandpaper Paper is stocked in sheets 8¾" x 10½" in three grits — Fine (#2/0), Medium (#1/2), Coarse (#1-1/2). Please specify grit wanted.

3 Sheets	$ .06
Per Dozen	.20

"CRYSTAL BAY" EMERY CLOTH

For sanding and cleaning metal surfaces Sheet 9" x 11". Three grits—Fine (#2/0), Medium (#1/2), Coarse (#1-1/2). Please specify grit wanted.

Per Sheet	$ .10
Per Dozen	1.00

"HOUSEHOLD" EMERY CLOTH

Package contains 6 sheets 4½" x 5½" in assorted grits.

Per Package	$ .10
Per Dozen	1.00

"THREE-M" GARNET Cabinet PAPER

Tough and durable! Used generally by Craftsmen and cabinet makers for conditioning surfaces before finishing. Sheets 9" x 11". Three grits—Fine (#3/0), Medium (#1/0), Coarse (#1). Please specify grit.

Per Sheet	$ .08
Per Dozen	.80

"THREE-M" GARNET Finishing PAPER

Same general type as above, but made especially for finishing work. This Garnet paper is very suited to finishing plastics as well as wood or plywood projects. A-weight backing; extremely flexible. Three grits: Fine (#7/0), Medium Fine (#5/0), and Medium (#3/0). Sheet size 9" x 11". Please specify grit wanted.

Per Sheet	$ .06
Per Dozen	.60

1" SANDPAPER ROLLS

Here is sandpaper in the form of rolls 1" wide and 50 yards in length — another new Carmen-Bronson stock item. Available in three grits: Fine (#3/0), Medium (#2/0), and Coarse (#1/0). Please specify grit wanted.

Per Roll	$ 1.40
Per Dozen	14.00

"CARTRIDGE" SANDPAPER ROLLS

These little sandpaper rolls have a small diameter bore that fit snugly over the end of your electric drill. Enables you to use your drill as a sander on edge surfaces, inside of holes, corners, etc. Cuts sanding time! Very suited to quantity production work. Try one! ¾" outside diameter, medium grit only for the present. Available in two lengths — 1" and 2".

1" length, ea.	$ .15
Per Dozen	1.50
2" length, ea.	.20
Per Dozen	2.00

"CRYSTAL BAY" CROCUS CLOTH

When used with oil and under pressure, Crocus Cloth has a mild abrasive action which produces a lustrous finish on well sanded or ground surfaces.

Per Sheet	$ .10

SPIRAL WOUND SANDING STRIPS

A specialty item produced by Minnesota Mining and Mfg. Co. Strip is 12" long. For sanding edges of small holes, corners and other "hard-to-get-at" places. Sand by drawing strip back and forth. Flexible and very durable. Medium grit only for now. Available in ⅛", ¼" and ⅜" diameters. Please specify diameters wanted.

Per Strip	$ .25

1/32" GREY FELT

For padding bottoms of lamps, trays and many other projects. A soft fine finish, 1/32" thickness.

36" x 36" Piece	$ .90
36" x 72" Piece	1.65

It's Easy to Order
PLYWOOD and PLASTICS BY MAIL!

YOUR HANDY ORDER BLANK IS ON THE REVERSE SIDE ➡

Follow These Simple Directions:

1. Please PRINT your name and address at top of Order Blank. See reverse side.
2. Check whether you want shipment by Parcel Post, Express or Freight. When ordering plywood panels larger than 24"x24", please specify Express, inasmuch as Parcel Post regulations prohibit shipment of many of the larger panels. When ordering 10 or more of large panels, such as ¼"x48"x96", shipment by freight is advisable, if charges are to be kept at a minimum.
3. When ordering just plywood for shipment by Parcel Post (no plastics included in the order), enclose 15% of the total amount to cover postage. For example, on a $3.00 order, send 45c extra; on a $10.00 order, send $1.50 extra, etc. We make refunds of any amounts overpaid.
4. When ordering just plastics for shipment by Parcel Post (no plywood included in the order), enclose only 10% extra for postage. For example, on a $3.00 order, send 30c extra; on a $10.00 order, send $1.00 extra, etc.
5. When ordering both plywood and plastics at the same time for shipment by Parcel Post, enclose 15% extra for postage. (The same as when ordering just plywood.)
6. If shipment is to be made by Express or Freight, please do not send additional amount for shipping charges. You simply pay Express or Freight at the time order is delivered.
7. Whenever possible, please allow substitutions on your order.

EXPRESS CHARGES

Express charges may be determined by the weight of the shipment and distance of the consignee from shipper. The following chart enables you to estimate charges.

MAXIMUM DISTANCE IN MILES	50 MI.	150 MI.	300 MI.	500 MI.	750 MI.	1000 MI.	1500 MI.	2000 MI.

FOR CUSTOMER'S USE

DEAR CUSTOMER:—Should you find it necessary to give us further information or details concerning the order you have listed on reverse side, please use space below. Any instructions you may wish to give us concerning substitutions should also be written below:

IMPORTANT:—Use above space to write only concerning order on reverse side. When writing or inquiring about other materials or supplies, please use separate sheet of paper. Thank you.

tioning surfaces before finishing. Sheets 30 X 72 Piece 1.05

EYELET ASSORTMENT

Six each of 6 different eyelets are included in the assortment. All are metal in plated, brown, black and brass finish. Round, oval and square shapes. In model building and in projects (as "breather" holes, for example), these eyelets are handy and useful.

Assortment ..... $ .15

ALUMINUM ASSORTMENT

We are very pleased to offer this aluminum assortment. Aluminum offers the craftsman unlimited possibilities—from jewelry bracelets to cigarette lighters. Package contains small sheets and strips. Assorted thickness.

2 lbs. $1.00
5 lbs. 2.00

SCOTCH TAPE

For general all-around purposes . . . and especially for masking applications when dyeing and cementing plastics projects. Our line of Scotch Tape is made by the Minnesota Mining and Mfg. Co.

½" width, 72 yards length, roll 1.75
¾" width, 72 yards length, roll 1.95
1" width, 72 yards length, roll 2.45

WELDWOOD WATERPROOF GLUE

You will be amazed at the strength of this plastic resin waterproof glue. It grips wood and other fibrous materials with a strength you never thought possible. There's no trick or "knack" in using it. Merely stir a little water into the powder, apply it — and the job is done.

5 lbs. 3.25
10 lbs. 6.00

FLOATING ART COLORS

You can decorate plywood, wooden, paper and metal objects — Candles, glass, china, bottles, shells — with swirling patterns of brilliant washable colors. Our liquid art colors spread and float on water. They form distinct patterns of swirling, separately outlined colors that are bright and vivid. Anyone can easily and quickly learn the art of color design and create original patterns of striking beauty. Complete instructions supplied. Our art colors are guaranteed to give full satisfaction or refund will be made. Supplied only in sets of six colors; in individual vials — red, white, blue, black, green, yellow.

1" MASKING TAPE

In paint spraying . . . in plastics cementing and dyeing, the masking tape is an indispensable accessory. Sticks firmly to any surface to which it is applied — to wood, to glass, to metal, to plastics. Yet—it can be removed readily, leaving a clean surface. 1" width only for the present. Paper backing.

10 Yard roll ..... $ .25
60 Yard roll 1.35

WOOD and FURNITURE POLISH

After trying out a large number of products from various manufacturers, we enthusiastically decided to feature this Wood and Furniture Polish in the Carmen-Bronson line. Easy to apply — you simply rub it onto wood or furniture in the usual manner. Yet, it does not leave a sticky or greasy surface. Finishes surface "bone dry" with a high gloss. Order this product and try it on one of your plywood projects. If you are not completely delighted with the results, return the unused portion of the Polish and we will gladly refund the entire purchase price.

Pint ..... $ .59
Quart ..... .98
Gallon 2.69

McALEER METAL TOOL CHEST

A wonderfully constructed and finished metal tool chest which you'll find perfect for storing or carrying your tools. Made in accordance with Army Ordnance specifications. Each chest features baked Olive Drab enamel finish with high gloss. 21" long, 8½" wide, 7¼" high. Chest comes complete with all metal tray. Chest has handles for easy carrying. Weighs 13 lbs.

McAleer Tool Chest, ea. $3.95

FINISHED BIRCH CHESTS

A solidly-constructed, sturdy chest for shop or home. Made originally for the U.S. Signal Corps, but now available due to a cancelled war contract. These chests are definitely NOT rejects, but well-built and without a flaw. Construction of ½" Birch plywood (waterproof) and ½" solid Birch. Locked-corner construction. Hardware (handles, hinges, etc.) are included but no screws. Special Signal Corps mountings inside may be easily removed. Size 29" x 16½"; 14" wide. Completely finished in Olive Drab with waterproof paint in accordance with Service specifications. Shipped by Railway Express or Freight only. We will gladly allow you 5-day inspection period and if you are not fully satisfied with purchase, Chest may be returned for full refund.

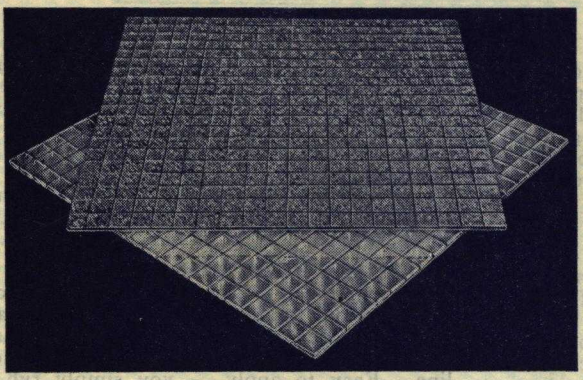
Each $13.75

BIRCH BOXES

Locked-corner construction. ¼" Birch stock used throughout, with waterproof jointings. May also be used as a tray for inside Birch Chest listed above.

Size 28" x 4⅛"; 7½" high.

Each $1.85



FLEXGLASS SHEETS

"The Glass That Bends"

The newest thing in glass is FLEXGLASS, "The Glass That Bends." It is an arresting, dynamic design material. FLEXGLASS will bend concavely and convexly and can be cemented to any smooth, hard surface. FLEXGLASS is genuine glass mounted on a fabric and then divided into a series of small squares 1" x 1". It is supplied in sheets 19½" x 19½". We are offering it in a BLUE MIRROR finish and in a SPARKLING WHITE DEWDROP finish. Great for decorative touches on projects; in fact, you can cover a complete box with it. You can really let your imagination run wild in using this extraordinarily beautiful material.

No. 25—SPARKLING WHITE DEWDROP, Per Sheet $4.95
No. 26—BLUE MIRROR, Per Sheet 5.15

IMPORTANT

TERMS

Cash with order or ¼ deposit, balance C.O.D. Please read instructions on attached Order Blanks before ordering. All prices in catalog No. 8 effective July 1, 1946, F.O.B. Mount Vernon, N. Y., subject to change without notice. All materials listed subject to prior sale. When we are temporarily out of an item, we will send notice of Back Order and ship that particular item later. Due to uncertain conditions affecting prices, all prices quoted or listed subject to change without notice.

WHOLESALE DEPARTMENT

We are pleased to announce that we have established a Wholesale Department in order that we may better serve commercial fabricators, hobby shops, schools and other large users of plastics, as well as the export field. If your requirements are large enough to amount to at least $100.00 in a single order, kindly write for complete details concerning our Wholesale Department and the Trade Discounts which we can offer.

CANADIAN C. O. D. SHIPMENTS

All orders from Canada should be accompanied by remittance in full, since Postal Regulations do not provide for C.O.D. shipments to Canada. If you reside in Canada, please cooperate by mailing full amount, plus postage, with your order. Thank you.

SHIPMENTS WEST OF THE MISSISSIPPI

If you reside West of the Mississippi, please enclose 15% of the amount of your order additional to cover postage (rather than 10% as mentioned in Instructions on attached Order Blanks). In the event that your remittance is not enough to cover postage, we reserve right to forward shipment by Railway Express and refund balance due you.

GUARANTEE

All items listed are guaranteed to please in every way. If any merchandise proves unsatisfactory, return it within five days for full refund.

No. 24-A—Complete Set ..... $ 65
6 Sets 3.25

PLASTICS JEWELRY . . . A HOBBY or BUSINESS

Very few fields offer such opportunities for personal pleasure and profit as the manufacture of plastics jewelry. Perhaps you are engaged in or have considered this field. If not, we sincerely recommend that you look into its possibilities . . . not only as a fascinating hobby but as a business which offers fine rewards for your time and effort. Start modestly . . . start with just one item or two. Make enough samples so that you can turn out a really professional-looking product. Show your finished samples to friends and neighbors, to a Department Store, a Drug Store . . . wherever you feel that your product can be sold successfully. Take orders for dozen lots . . . for gross lots. It's not too simple, of course. It requires hard work, patience and creative ability to turn out a product that "goes over big." Try it!

AIRCRAFT PLYWOOD

All the aircraft plywood panels listed in this catalog are of 3-ply construction and strictly waterproof. The three plys are bonded under heat and pressure with plastic resin glues. Panels, considering their thickness, are very rugged, and are ideal for countless craft projects which require an attractive finish as well as durability. Our stocks of aircraft plywood is well assorted as to type of wood, thickness and panel sizes — and from the listings which follow we are sure you will be able to select panels which meet your particular requirements in every way. All our aircraft plywood panels, as well as all other plywood and wood items, are offered to you on a Money-Back Guarantee basis. If, for any reason whatever, you are not completely satisfied with your purchase, return panels in five days for full refund.

5¾"x12"	panel, ea.		$ .13
7½"x24"	"	"	.34
11½"x48"	"	"	1.00

1/8" CABINET BIRCH

Birch plywood is one of the most popular —and economical!—materials for cabinet and paneling work. Not only does it lend itself to an extremely attractive finish, but Birch is noted for its toughness and durability. If your project, or line of products, require a medium-light colored wood, with an eye-catching grain pattern, by all means employ our Birch Cabinet panels. This 1/8" Birch item, as well as all the other Birch Cabinet panels listed below, is now a standard Carmen-Bronson plywood and may be ordered month after month. Good one side, sanded good side only. 3-ply construction. Water-resistant.

12"x12"	panel, ea.		$ .20
12"x24"	"	"	.40
12"x36"	"	"	.60
24"x24"	"	"	.75
36"x36"	"	"	1.55

3/16" CABINET BIRCH

Same type stock above, but in 3/16" thickness. Good one side, sanded good side only. 3-ply, Urea-resin glued (water-resistant).

12"x12"	panel, ea.		$ .21
12"x24"	"	"	.42
12"x36"	"	"	.63
24"x24"	"	"	.78
36"x36"	"	"	1.67

1/4" CABINET BIRCH

Same type stock as above, but in popular 1/4" thickness. Good one side, sanded good side only, 3-ply, Urea-resin glued (water-resistant).

12"x12"	panel, ea.		$ .22
12"x24"	"	"	.44
12"x36"	"	"	.66
24"x24"	"	"	.85
36"x36"	"	"	1.80

3/8" CABINET BIRCH

This is the first standard Birch panel in 3/8" thickness that we have ever stocked, and this particular type panel has long been in demand by Craftsmen throughout the country. We are glad to be able to make it available to you as a standard stock item. 5-ply construction, Urea-resin glued (water-resistant). Good one side, sanded good side only.

12"x12"	panel, ea.		$ .37
12"x24"	"	"	.74
12"x36"	"	"	1.10
24"x24"	"	"	1.45
36"x36"	"	"	2.85

PLEASE NOTE: Despite all our efforts to speed deliveries from the mill Cabinet Birch panels, we are still running behind on shipments. We offer these panels for delivery from 60 to 120 days. You may be sure, however, that everything possible is being done to improve this service. Meanwhile, please be patient—and thank you for your understanding.

1/2" CABINET BIRCH

Same general type stock as above, but in rugged 1/2" thickness. Perfect stock for Cabinet work, where strength, as well as an attractive appearance, is a factor. We feel sure that this item will be among the most popular in our line and are ordering it in very large quantities from our mill.

12"x12"	panel, ea.		$ .45
12"x24"	"	"	.90
12"x36"	"	"	1.35
24"x24"	"	"	1.80
36"x36"	"	"	3.80

1/8" MAPLE

These 1/8" thickness panels are now standard stock items. Panels are good one side, sanded both. A real value for Craftsmen who desire an attractive light finish for their cabinet or paneling projects. 3-ply Urea-resin glued.

12"x12"	panel, ea.		$ .25
12"x24"	"	"	.50
12"x36"	"	"	.72
24"x24"	"	"	.95

36"x36"	"	"	2.00
36"x72"	"	"	3.90

3/16" MAPLE

Same general type stock as above, but in sturdier 3/16" thickness. It is also now a standard Carmen-Bronson stock plywood item. For cabinet and paneling applications. 3-ply, Urea-resin glued, good one side, sanded both.

12"x12"	panel, ea.		$ .28
12"x24"	"	"	.55
12"x36"	"	"	.80
24"x24"	"	"	1.05
24"x48"	"	"	2.05

1/8" WALNUT

Walnut stock that represents plywood at its most attractive best. For cabinet and paneling applications in popular 1/8" thickness. Good one side, sanded both. 3-ply, Urea-resin glued.

12"x12"	panel, ea.		$ .38
12"x24"	"	"	.75
12"x36"	"	"	1.15
24"x24"	"	"	1.50
24"x48"	"	"	3.00

1/4" WALNUT

Same type attractive cabinet and paneling stock as above, but in thickness of 1/4". Now available to Carmen-Bronson customers in small panel sizes for the first time. Good one side, sanded both. 3-ply, Urea-resin glued.

12"x12"	panel, ea.		$ .40
12"x24"	"	"	.80
12"x36"	"	"	1.20
24"x24"	"	"	1.55
24"x48"	"	"	3.00

IMPORTANT: If you reside West of the Mississippi, please do not request shipment of plywood orders by Parcel Post. Effective February 1, 1946, all plywood shipments for West of the Mississippi will be forwarded by Railway Express, or by freight, whichever you indicate on your order.

⅛" GUM WELDWOOD

Due to the extreme slow deliveries from the manufacturer, we regret that we cannot accept any further orders for this popular panel, which was listed in previous FLYERS. Meanwhile, we are making every possible effort to complete all orders on file. Shipments which arrive during the remaining months of this year will be used to fill Back Orders. Should we have any good news concerning this panel, we will publish full details in the C-B PLYWOOD DIGEST, our new monthly publication which will be mailed to Plywood customers and prospects every month, beginning September 1, 1946.

⅛" MAHOGANY

Mahogany has always been a perennial favorite among craftsmen. For wall paneling, furniture, fixtures, etc. Now available in small panels as listed below. Good one side, sanded both. 3-ply water-resistant (not waterproof), Urea-resin glued.

12"x12"	panel, ea.	$ .38
12"x24"	" "	.75
12"x36"	" "	1.15

48"x72"	" "	9.25
48"x84"	" "	11.50
48"x96"	" "	13.00

PLEASE NOTE: All cabinet and paneling plywood listed in this catalog are Urea-resin glued and highly water-resistant. However, all panels are designed for interior applications and should not be used for boat building, or other applications requiring strictly waterproof material. For such purposes, our special waterproof grades of plywood should be used, or Aircraft plywood grade — depending upon the use. We hope to be able to offer a full line of special waterproof panels, as soon as our mills can get into production on this type material. Please watch announcements in the C-B PLYWOOD DIGEST. Incidentally, are you on the mailing list to receive this newsy, interesting publication beginning September 1, 1946? If not, drop us a line today. The C-B PLYWOOD DIGEST is a monthly publication devoted exclusively to bringing you latest news and offering on PLYWOOD and related items.

¼" BIRD'S EYE MAPLE

Still another new item which we are pleased to offer in this CATALOG. Used extensively for paneling and cabinet applications. 3-ply construction: good one side, sanded both.

36"x42"	panel	$ 5.75
36"x84"	"	11.35

¼" CURLY BIRCH

Here is a panel to which no word description can do complete justice. A really gorgeous grain effect that places this panel in a class by itself. Good one side, sanded both. 3-ply, Urea-resin glued.

48"x48"	panel	$ 7.95
48"x96"	"	14.70

¼" OAK

Paneling and cabinet stock. Great for craftsmen who want to feature a fine-line grain panel in natural light color. Urea-resin glued, good one side, sanded both. Now available in popular small-size panels for the first time.

12"x12"	panel, ea.	$ .30
12"x24"	" "	.60
12"x36"	" "	.90
24"x24"	" "	1.20
24"x48"	" "	2.40
24"x60"	" "	2.95

PLEASE NOTE: Deliveries slow on above, and it is difficult to predict just what shipping service we can offer Please be patient and bear with us during these times of shortages. Thank you.

11/16" BIRCH

This 5-ply panel is constructed to very rigid specifications. Each of the five plys is Birch, and each is sound wood thru and thru. No knot-holes or other defects in any of the plys. Used principally as die boards or panels, and for cabinet work that requires highest possible quality material. Urea resin glued, good both sides, sanded both.

24"x36" panel, ea. $4.35

¼" FIR STRIPS

As you know, Fir plywood was one of the most restricted materials during the war—and is still very scarce. This item, however, offers a "preview" of the many new and interesting Fir items we plan to offer in the months ahead. Narrow panels, 3¾" wide — in lengths listed below. Good one side, sanded both. 3-ply construction.

3¾"x84" panel, ea. ..... $ .30
3¾"x48" " " ..... .17

1 1/16" HASKELITE COMPOSITION PLYTEX

These unusual heavy-duty panels were purchased in the surplus market, as a result of government cancellation. Panels are 8-ply construction. The two surface plys are made of thick composition material, durable and rugged—and one of the inner plys is a solid sheet of Lead! Remaining 5 plys are of birch and maple. Shipped by Express or Freight only.

18¼"x22¼" panel, ea. $4.75

1/8" GUATEMALEN CEDAR

A new addition to our line, and a panel which we hope to be able to offer always as a standard stock item. The grain effect of this material is unsurpassed for appearance, and will meet the approval of the most discriminating craftsmen. Lumber core stock, good one side. For chests, cabinet work, paneling, etc. Sanded both sides. We may have to substitute Mahogany on this item, same sizes, thickness and price.

24"x24" panel, ea. ..... $ 3.15
24"x48" " " 6.25
48"x48" " " 12.50
48"x96" " " 23.95

¼" GUM

Here's still another plywood panel in tremendous demand but in very short supply. Although we had previously listed these ¼" Gum panels (sizes 48"x60" and 48"x72") as standard items, all incoming shipments for the remaining portion of the year will be used in filling the backlog of orders. Therefore, please do not order this type stock, but watch latest news developments to be announced in the C-B PLYWOOD DIGEST, a monthly publication to be issued beginning September 1, 1946. The C-B PLYWOOD DIGEST will keep you currently abreast of all news on plywood and other wood products.

½" MAHOGANY

For cabinet and paneling applications; a fine selected stock. Good one side, sanded both sides; 5-ply, Urea-resin glued.

12" x 24" panel, ea. $1.30
24" x 24" panel, ea. 2.55
24" x 48" panel, ea. 4.90
48" x 48" panel, ea. 9.60

¼" SMALL MAHOGANY PANELS

Here is one of the finest lots of small plywood panels that we've ever had the pleasure of offering our Craftsmen friends from coast to coast. Panels are faced with Mahogany on both sides, and sanded both sides. ¼" thickness, 3-ply, Urea-resin glued A gorgeous panel for small but luxurious-looking projects. Good both sides.

8" x 12" panel, ea. ..... $ .33

¼" SMALL WALNUT PANELS

Same type stock as above, but faced on both sides with Walnut. 3-ply, good both sides, sanded both sides.

8" x 12" panel, ea. ..... $ .33

¼" SMALL BIRDS-EYE MAPLE PANELS

Same type stock as above, but faced on both sides with Bird's-Eye Maple. 3-ply, good both sides, sanded both sides.

8" x12" panel, ea. ..... $ .37

1/8" GUM

Small panels, but very economical and highly suitable for the toy trade. Good one side, sanded both. Some Poplar panels are mixed in this Gum lot. For economical production of your fall and winter line of toys, novelties and other projects. Good stock permits prompt shipment, but order as soon as possible since we know that these panels will move fast. 3-ply construction.

6½" x 13" panel, ea. ..... $ .14
6½" x 18" panel, ea. ..... .17
4¾" x 28" panel, ea. ..... .19

3/16" UNSANDED BIRCH

Here are utility grade Birch panels, small size, unsanded. This should not offer any problem, however, to Craftsmen, and the low cost of the panels should make this item interesting. 3-ply construction, good one side, when sanded.

13" x 13" panel, ea. ..... $ .19
7" x 30" panel, ea. ..... .28

1" PLASTIC SURFACED TABLE TOPS

A plastic surface plywood heavy duty panel especially made for table tops. Quantity very small, so please place order promptly. Limit one panel to customer. Plywood construction of Poplar and Gum. Ready for painting in color which you desire. Weatherproof construction.

18" x 36" panel, ea. $5.75

AIRCRAFT PLYWOOD CLIPPINGS ASSORTMENT

This assortment is made up principally of ¼" waterproof aircraft plywood clippings—odd shaped small pieces. Pieces average from 1½ to 2 square inches. Suitable for bracings, small novelties, etc.

Clippings Assortment, 1 lb. ..... $ .35
Clippings Assortment, 5 lbs. 1.50

1½" SOLID BALSA SHEETS OR BLOCKS

During the past two years, many Craftsmen have inquired concerning the availability of solid Balsa sheets, or blocks. We are happy to say that we have arranged for a steady supply. Balsa is one of the lightest and softest woods known. Used principally in model work, carved projects, cores, etc. Stock is solid Balsa, (not plywood). Clear and without defects. 1½" thickness, unsanded.

4" x 12" sheet, ea. ..... $ .25
4" x 24" sheet, ea. ..... .50
4" x 36" sheet, ea. ..... .75

2" SOLID BALSA SHEETS OR BLOCKS

This solid Balsa stock (not plywood), is the same general type material as above, but in 2" thickness. Supplied unsanded, but some sheets, or blocks, are finished to 1⅞" thickness wth trimmed edges.

5" x 9" panel, ea. ..... $ .28
5" x 18" panel, ea. ..... .56
5" x 26" panel, ea. ..... .75

¾" BIRCH-MAPLE

We are very pleased to list this exceptionally interesting lot of Birch and Maple panels, inasmuch as they fill a definite need in most craft shops for heavy-duty panels in a light finish. Ideal for bases of projects of all types — and many other applications. Most panels are 5-ply construction, with some having grain running across width. Some of the panels have reject backs, but the average shop is well equipped to mend any slight de-laminations, etc. Good, clean, high grade stock. Offered good one side, sanded both. Try these panels with your next order!

2½" x 16" panel, ea. ..... $ .20
3¾" x 14" panel, ea. ..... .22
6½" x 16" panel, ea. ..... .39
7⅜" x 16" panel, ea. ..... .44
5½" x 22" panel, ea. ..... .46
8½" x 22" panel, ea. ..... .70
7½" x 24" panel, ea. ..... .72
13½" x 14" panel, ea. ..... .77
14" x 16" panel, ea. 1.05

CABINET PLYWOOD ASSORTMENT

This assortment is made up principally of odd cabinet type plywood panels and cut-offs, which accumulate in our warehouse from time to time. All material is top grade and good one side. No two assortments are alike, but all consist of assorted panels from about 6" x 12" to about 15" x 24", in thicknesses of about ¼" through about 13/16" in Birch, Gum, Walnut, Mahogany, etc. Offered to you on a 5-day no-risk plan. If you are not more than pleased with this Jumbo bargain package, return it in five days for full refund. Assortment totals 10 sq. ft. of material.

10 sq. ft. Bundle, ea. $3.50

CRAFT WOODWORKING ASSORTMENT

An interesting assortment similar to the above, but in which only solid wood, blocks, turning squares, etc. are included, rather than plywood. All material is top grade and no two assortments are completely alike. Various woods are included, both softwoods and some hardwoods. Material included is Squares 1" x 1" and about 12" - 18" long . . . Squares 1" x 1" and about 12 - 18" long . . . blocks, 4" x 3" x 3", strips 2" x 2" and up to about 12" - 18" long . . . etc. Suited for Craftsmen, both skilled and beginners, schools, cabinetmakers, etc. Supplied in assortments totaling 10 lbs and 20 lbs. Guaranteed to please in every way!

Woodworking Assortment, 10 lbs. $2.50
Woodworking Assortment, 20 lbs. 4.50

⅜" SELECTED GUM

A very fine of ⅜" Gum plywood strips, which were originally selected for quality. This size strip has long been a top favorite among our customers. 3-ply construction, good one side, sanded both sides. Large quantity on hand, but order promptly, as this item is most surely to move very fast.

4" x 28" panel, ea. ..... $ .25

¼" UNSANDED GUM

A plywood item for many economical applications. Can easily be sanded to a smooth, fine finish. Good one side only; reject backs. 3-ply construction.

5" x 18¾" panel ea. ..... $ .16

⅜" UNSANDED GUM

Same type stock as above, but in heavier ⅜" thickness. Good one side only; reject backs. 3-ply construction.

3½" x 18" panel, ea. ..... $ .09
4¼" x 17¾" panel, ea. ..... .10
4¾" x 35" panel, ea. ..... .19

5/16" UNSANDED FIR

Same general type stock as above, but in Fir, rather than Gum and in 5/16" thickness. Unsanded stock, good one side only. 3-ply.

3¾" x 40" panel, ea. ..... $ .13

⅜" UNSANDED FIR

Same general type stock as above, but in ⅜" thickness. Good one side, unsanded, 3-ply.

3¾" x 21¾" panel, ea. ..... $ .08

½" SOLID OAK

Lumber item (not plywood). Used for bases of projects. Dressed two sides, good two sides.

7⅝" x 10½" panel, ea. ..... $ .40

1" SOLID OAK

Lumber item (not plywood). Ideal for table legs, turnings, etc Smooth, but unsanded stock Clear stock, through and through 1" thick by 4⅝" wide and 32" long.

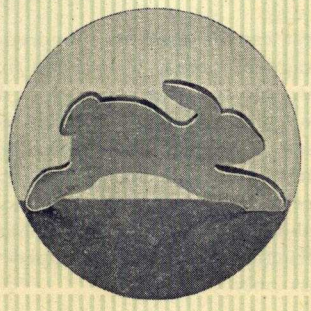
FIR PLYWOOD PIECES

We consider ourselves fortunate indeed to be able to feature the three FIR pieces illustrated above IN QUANTITY. Despite the severe shortage of standard Fir plywood panels, we were able to secure a FULL CARLOAD and A HALF of these three items! Hundreds of C-B customers, particularly Craftsmen and manufacturers who specialize in toy and novelty production, will immediately plan their Fall and X-mas lines around these three Fir pieces.

The toy rabbit pictured in the inset was jig-sawed from Piece



No. PL-1. It is an excellent example of the many toys and novelties which can be manufactured from these three Fir items. Thickness and size are as indicated above. No. PL-1 is half-round solid Fir (not plywood) 4" high. No. PL-2 and PL-3 are 5-ply construction, Urea-resin glued, 5½" high. All three are Sound grade, both sides, sanded.

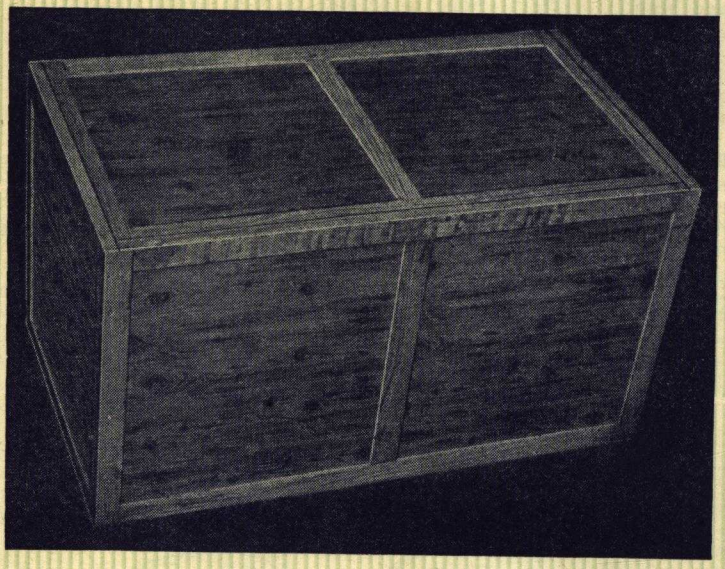
STORAGE CHEST KIT

(Pre-Fabricated)



SIZE: 20" x 19½" x 36"

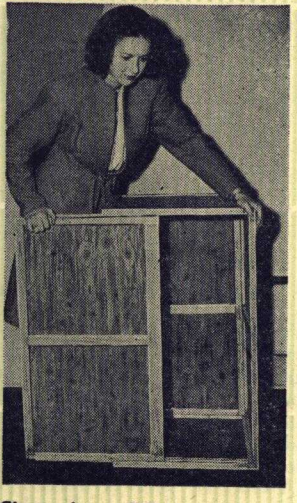
CEDAR-EFFECT CARDBOARD PANELS

PRE-FABRICATED HARDWOOD FRAMEWORK

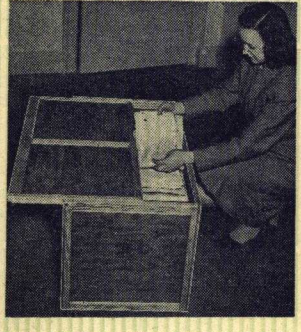
EASY TO ASSEMBLE!

Here's one of the most astonishing values we've ever had the pleasure of offering to our Craftsmen friends throughout the country. Imagine! This large storage chest was originally manufactured to retail for $4.95 to $6.50, assembled. Yet . . . you get the complete chest in Pre-Fabricated Kit for only $2.49 . . . or two for $4.49!

This amazingly low price was made possible by our purchase of a large quantity of the Kits, at genuine close-out prices! Also . . . when we made our purchase, the manufacturer had already stained two of the hardwood frame pieces in walnut finish. However, for your purpose this should not detract from the value of the chest . . . since you can readily stain the remaining pieces in walnut also!



Chest has sliding-type top. Stand on end, install shelving, and you have a perfect shelf-chest for home or shop.



Ideal for storing linens and clothes in home.

Chest can be used for hundreds of storage purposes. Use it for linens —for clothes—for toys—for tools —for plastics supplies. Kit comprises 10 Cedar-Effect Cardboard panels, plus all hardwood frame pieces, Pre-Fabricated, ready to assemble. Accessories and complete instructions included. Shipped Express only.

STORAGE CHEST KIT, COMPLETE, EA. $2.49
TWO FOR 4.49

LIGNOLITE

PLASTIC PANELS

Laminated Lignin Plastic

LIGNOLITE is a strong, light-weight laminated lignin plastic panel . . . available in thickness of 1/16", 1/8", 3/16", and 1/4". Panel sizes are from 15" x 18" through to 30" x 72" and 46" x 46". The panels have a phenolic enriched surface. Supplied in a natural opaque black color, they may easily be buffed or polished to a very high gloss or lustrous finish. LIGNOLITE panels combine beauty with strength at LOW COST!

LIGNOLITE may be sawed, drilled, threaded, tapped and milled without special or expensive tools. The material is about one-half the weight of aluminum . . . one-fifth the weight of steel. Yet . . . it has a tensile strength of up to 12,000 lbs. per square inch. LIGNOLITE panels are strong, tough . . . durable.

The panels can be glued, with casein glues, to lumber, plywood and Masonite cores. They are highly resistant to water, oil, grease, heat, alcohols and abraison. LIGNOLITE is easy to clean . . . will not stain easily. Panels may be painted if desired.

Whether you are a home craftsman . . . a cabinet maker . . . a toy and novelty manufacturer . . . you will immediately recognize LIGNOLITE as one of the new and exciting plastics for which you waited so long! This amazing plastic is now available for civilian use without restrictions. Remember . . . public demand for plastic articles is soaring. Let LIGNOLITE help you supply the market PROFITABLY. Mail your order for LIGNOLITE panels today!

NOW! A High Grade Beautiful Plastic at LOW COST!

One of the astonishing features of LIGNOLITE panels is their low cost! Check the prices at the right. You'll agree at once that each panel is an amazing value. Mass production . . . Carmen-Bronson mass mail order sales make these values possible. As a plastic fabricator, LIGNOLITE gives you a tremendous price advantage over competition. As a home craftsman, LIGNOLITE brings the beauty of plastics into your home at big savings!

The Carmen-Bronson

GENERAL PLASTICS SUPPLY ASSORTMENT

A Selected Assortment of Standard Plastics and Supplies For Fabricators, Schools, Plastics Students and Home Craftsmen

Our GENERAL PLASTICS SUPPLY ASSORTMENT (referred to as our G.P.S.A.) comprises a well-balanced and generous supply of fully 27 standard Carmen-Bronson plastics items. The G.P.S.A. in itself represents a liberal education in the fascinating field of plastics design and fabrication . . . and profit opportunities in the hundreds of dollars. It was developed especially for small commercial fabricators . . . for school classroom use . . . for plastics students . . . for home craftsmen. Each of the 27 items in our G.P.S.A. was carefully selected to meet rigid requirements, from the standpoint of quality, educational value and fabricating possibilities. Moreover, since G.P.S.A. is now featured as a standard unit in the Carmen-Bronson line of plastics, we are in a position to assemble, pack and stock the units very economically. And because of these economies, as well as our desire to distribute our G.P.S.A.'s widely, we are offering the complete unit at a special price of only $49.95 FOB Mount Vernon, N. Y.—a savings to you of $8.44.
